My Objective

I am a graduate in web design & development who is looking to take their first step towards a long & fruitful career as a front-end web developer, with an aim to ultimately graduate into a full stack role. My education & independent studies have afforded me with an excellent understanding of fundamental HTML, CSS, JavaScript, PHP & Python, alongside accompanying frameworks/libraries such as React, Vue, Bootstrap & Tailwind. I also am familiar with back-end database software such as MySQLi & MongoDB.

Employment History

CAREER RELATED EMPLOYMENT

Intern Web Developer

From March 2023 to May 2023.

COSLA (Voice of Scotland's 32 councils, promotes local decision-making and service).

19 Haymarket Yards, Edinburgh EH12 5BH

Responsibilities:

This internship saw me cloning the COSLA Digital website onto my local development environment, making changes to its code in accordance with coming up with solutions to problems found or new features requested on our shared issues board, and then deploying the successful fixes into my personal live site, after which we would make an upwards request for approval of my solutions on the main website via GitHub, reiterating this whole process again for sequential issues.

Achievements:

Standardized UX/UI elements across the website so that they conformed to the same design hierarchy, bolstered the readability of policy proposal text segments via implementing truncation and overlay functions, and remastered the home pages hero banner with a sliding hero carousel that dynamically sourced all its components.

OTHER EMPLOYMENT

Events Management Assistant

From April 2017 to December 2017.

Containerships GmbH (Part of the CMA CGM Shipping Group, the 4TH largest global shipping company).

Chilehaus A, Fischertwiete 2, 20095 Hamburg, Germany

Responsibilities:

Temporary posting helping with research, collection of customer data relating to import / export requirements in the Container logistics industry. Duties also involved supporting the events team in, making appointments, answering the telephone, attending events as an usher, and helping the general public with industry information at exhibitions.

Achievements:

Increased workflow efficiency by combining semi redundant sales protocols and Excel sheet schematics into more streamlined methodologies allowing for an increased number of leads resulting in increased volume of customer transactions.

Agency Worker

From September 2019 to 2021.

GigtoGig

21 Young Street Edinburgh Scotland.

Responsibilities:

Accessing an online portal for hiring opportunities and proceeding with them by committing to standardised dress codes and meet-up specifications. Gigs / events typically range from stewarding at sports events to manning bar staff positions.

Achievements:

Viewed as a worthwhile steward and bar staff member as have been asked back numerous times.

Voluntary Employment

In Brazil, I would station at various community fairs and festivals providing high quality customer service in tasks such as ushering, accounting for retail stalls as well as occupying waiting / front house attendance for food stalls.

Computer literacy

Html, CSS, JavaScript, Ruby, PHP, Python.
React, Vue, Tailwind, Bootstrap.
MySQLi, SQLite, MongoDB.
Google AdWords.

Languages

English - Native
Portuguese - Fluent.

Education

Napier Graduate in Web Development (Bachelors)

10 Colinton Road, Edinburgh - EH10 5DT.

Studied centred around UX/UI design, full-stack programming, and organizational planning.

Interests

Tinkering with Stable Diffusion, digital marketing, basketball, self-improvement related activities, working out.
